

RVCC President Inspires Students

River Valley Community College President Dr. Alicia Harvey-Smith encouraged students in a Self-Care and Stress Management class at the college to use River Valley as a launching pad for their dreams as they pay attention to their passion and connect with their vision to create success in their lives. The students were deeply touched by the personal story of her academic journey, awed by her inspirational poetry and very grateful that she took the time to come in and speak with them. All agreed that she was amazing, accessible and very motivating.
