FALL SEMESTER 2023

CREDIT COURSE SCHEDULE

AUGUST 28 - DECEMBER 16, 2023 (11-week Late Start: October 2-Dec 16, 2023) (Dec Grad Date: 12/20/23)

(Courses run full semester unless otherwise noted by course title.)

Prerequisite Requirements: Some courses have prerequisite course(s) or minimum test scores (indicated above course title). If you did not have the prerequisite course(s) or testing at RVCC, please submit a copy of your transcript or test scores from other institutions, showing successful completion.

Textbooks: Information on required/recommended textbooks for courses, including ISBN numbers and prices, will be posted on the College Bookstore website: <http://www.rivervalley.bkstr.com>. If you see a "(NOLO)" designation next to a course title it means the materials for that course are No or Low Cost.

Late Start Courses: If you are enrolled in a late start course, your financial aid may not disburse until enrollment for the class can be confirmed. Please contact the Financial Aid Office if you have any questions.

Billing, Schedules, and Grades: Tuition and fees are due two weeks prior to the first day of the semester. RVCC does not send paper bills or schedules. Upon registration, you are enrolled unless otherwise notified. No confirmation will be mailed. Classes are subject to change. Students need to login to the Student Information System (SIS) for their E-bills, schedule, classroom location(s), grades, financial aid information, student email account, etc.

Course Offering Options: In addition to traditional face-to-face class meetings, RVCC offers courses in a variety of modalities to meet student needs. Online courses have no scheduled meeting times. Online courses are asynchronous and delivered via Canvas. While students can complete assignments at a time that fits their schedules, online classes have expectations including, but not limited to, regular and substantive faculty and student participation and assignment due dates. Remote Synchronous courses meet at designated times through Zoom. There is also a selection of hybrid options available to maximize flexibility and while offering synchronous opportunities to learn. When courses are listed as Synch. & Asynch. Online, there will be contact hours completed both together on Zoom and separately online. When the course location is listed as a town and Asynch. Online, you will meet face-to-face at the designated times with the remainder of the course taught asynchronously. Bimodal courses allow you to choose between two modalities according to the planned topic, personal need, or preference. A Hyflex course presents the components of hybrid learning in a flexible model that gives students the option of attending scheduled class meetings face-to-face, online, or remote synchronously. Students can choose their manner of participation for each class meeting according to the planned topic, personal need, or preference. Please consider technology needs such as strong internet connection, camera/mic/speakers, etc. Additionally, a distraction free environment will be most conducive to learning.

MATHEMATICS

CREDITS FROM THIS COURSE DO NOT APPLY TOWARDS GRADUATION REQUIREMENTS. Select one section:

11491	MATH 016R	CD1	Fundamentals of Math Literacy - Lecture (NOLO)	4	M,W	10:00 AM	11:50 AM	Claremont	146	Dorothy Miles
11492	MATH 016R	KD1	Fundamentals of Math Literacy - Lecture (NOLO)	4	M,W	10:00 AM	11:50 AM	KSC - RVCC Building	205	Claudia Istel

Prerequisite: Self-assessment. You should be able to perform the skills below on demand or with minimal review. These skills are typically mastered through the successful completion of high school algebra II or higher or their equivalents. If you are unsure about your preparation for this course, please request an assessment from the mathematics advisor. Fundamentals of Math Literacy treats all of these topics in depth to prepare you for this course. Prerequisite skills include: following the order of operations; applying the principles of rounding; making fraction-decimal-percentage conversions; reading and interpreting basic tables and graphs; performing operations with square roots; using scientific notation; and manipulating basic linear equations including isolating variables, finding slope, y-intercept, and writing equations of lines given two points. Select one section:

11416	MATH 106R	CDB	Statistics I - Lecture (NOLO) Math Workshop - Lab	4	M,W	6:00 PM	7:20 PM	Bimodal (Claremont or Zoom)	Zoom/146	Joy Hutchins
					M,W	7:30 PM	8:50 PM	Bimodal (Claremont or Zoom)	Zoom/146	
11418	MATH 106R	ZZ1	Statistics I - Lecture (NOLO) Math Workshop - Lab	4				Asynch. Online	-	Rich Andrusiak
								Asynch. Online	-	
13638	MATH 106R	ZZ2	Statistics I - Lecture (NOLO) Math Workshop - Lab	4				Asynch. Online	-	Rich Andrusiak
								Asynch. Online	-	

Prerequisite: Self-assessment. You should be able to perform the skills below on demand or with minimal review. These skills are typically mastered through the successful completion of high school algebra II or higher or their equivalents. If you are unsure about your preparation for this course, please request an assessment from the mathematics advisor. Fundamentals of Math Literacy for STEM treats all of these topics in depth to prepare you for this course. Prerequisite skills include: following the order of operations; applying the commutative, associative, and distributive properties; applying the principles of rounding; making fraction-decimal-percentage conversions; reading and interpreting basic tables and graphs; performing operations with square roots; using scientific notation; plotting points on a coordinate system; manipulating basic linear equations including isolating variables, finding slope, y-intercept, and writing equations of lines given two points; performing operations with polynomials; factoring; graphing linear and quadratic equations; applying exponent rules. Select one section:

11409	MATH 110R	CDB	Functions & Modeling I - Lecture Math Workshop - Lab	4	Tu,Th	9:00 AM	10:20 AM	Bimodal (Claremont or Zoom)	Zoom/130	Dorothy Miles
