

Liberal Arts

Associate of Arts with a Concentration in Psychology

Do you have a passion for the pursuit of knowledge?

The Program

The Liberal Arts Associate of Arts program offers the equivalent of the first two years in a four-year baccalaureate program. The program allows students to easily continue their education, or enter the workforce. A faculty advisor works with each student to design the program that best meets the student's future plans. Requirements of the four-year college for transferring students will guide some of their selections; the future plans and areas of interest for each student will also contribute to each student's program design.

Job Opportunities

Liberal Arts studies focuses on developing critical thinking and communication skills - which according to the National Association of Colleges and Employers, are highly sought after by employers. Therefore, students who complete the Liberal Arts Associate in Arts programs can choose between transferring into a baccalaureate degree program, or into their career. Common pathways include:

Careers:
Teachers's Aide
Social Services
Youth Counselor
Research Assistant

Degrees:
Psychology
Neuroscience
Social Work
Human Resources

Liberal Arts courses are offered in Claremont, Lebanon, Keene, and Online.
